

- 1. Roller frame
- 2. Controller
- 3. Fleece rolls mount
- 4. Water level sensor
- 5. Twist-lock tube

- 6. Motor
- 7. Fleece rolls
- 8. Water level sensor mounting bracket
- 9. Power supply
- 10. Roller frame hanger

With provided hardware , mount the frame hanger (10) on the inside of the basket as pictured.

Insert the fleece roll mount(3) into the center of the fleece roll(7)
Guide the loose end of the fleece around the frame and attach to
the provided twist-lock tube(5)

Insert twist-lock tube (5) onto motor(6)

Slide motor onto frame

mount the motor bracket

Secure water level sensor (4) on to sensor mount(8)

Once the sensor is on the mounting bracket, you can install it on to the roller frame with supplied nylon screw

Lastly, place roller frame inside of the basket to complete installation.
